

**CARBON
TOOLKIT**

A project by

**British Columbia
Assembly of First Nations**

November 24, 2023

British Columbia
Assembly of First Nations

Project

Origins

Arose from BCACFN mandate to supporting First Nations community-led climate initiative to:

- Foster First Nations climate leadership,
- Enhance First Nation resilience to climate change, focusing on both adaptation and greenhouse reduction.
- Advocate for the respect and implementation of First Nations Title, Rights and Treaty Rights in carbon initiatives.

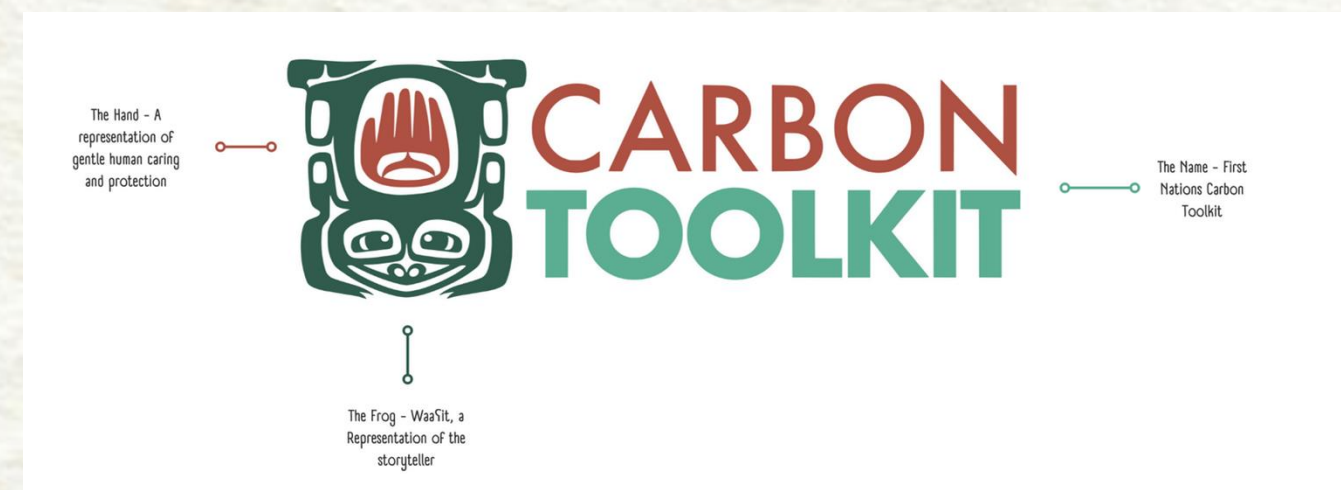

British Columbia
Assembly of First Nations

In 2022, BCAFN and Ecotrust Canada joined efforts to create a **BC First Nations Carbon Forest Toolkit**

The Process

- Research – interviews, literature reviews, case studies
- Development – writing, developing the website & PIN Builder
- Partnership – Illustrations, logo, photos
- Review – peer review by experts

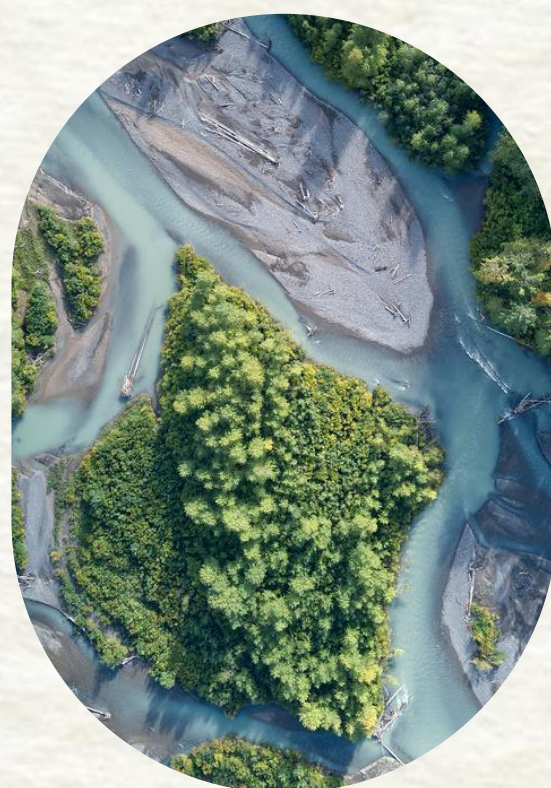

British Columbia
Assembly of First Nations

The Toolkit Features:

- Interactive & approachable
- Illustrations, photos & videos
- Five learning modules
- Glossary
- Project Idea Note Builder (evercity.io)

Learning Modules

**1. Climate Change &
Natural Climate
Solutions**

**2. Carbon Markets
& Carbon Offsets**

**3. Implementing and
Upholding First
Nations Carbon Rights,
Ownership &
Entitlement**

**4. Opportunities,
Barriers & Case Studies**

**5. Planning Your
Carbon Project**

Glossary
